

DESIGN CANVA WOW

CREATE CHARTS AND INFOGRAPHICS

This example features Pekin HS in Pekin, IL.

WATCH TUTORIAL

EXTRA REMINDER

As always, your **high-res PDF** is your ultimate guide to what will print in your yearbook. Please be sure to print and closely examine your PDF to make sure you like what you see.

INSTRUCTIONS

Open a **square canvas** in Canva from eDesign. If you're working on the page, you can do this from the blue 'C' in the control panel. If you're in the Art Library, go to Import > Create in Canva.

Click **Charts** in the left menu of Canva. Scroll through the various charts until you see one that you like. Make a selection and controls for your chosen chart will appear.

Input the number of survey responses for each category and the percentage of responses. Add categories or delete items.

Using the top menu, you can **change the font and colors** of your chart. If you don't want any text to appear, make it white. This will work if the background of your page is also white.

When done, click **Publish** in the upper right corner. Your chart will appear in your eDesign Art Library.

Extra Tips:

Use Google Forms as an easy way to create and distribute surveys for your students.

Choose one font in Canva to use for your Charts. Make this font part of your font palette and rely on it for Canva needs rather than trying to find an identical match within eDesign.
